

Space CUBES

Space for

to sell, to present, to inform, to work
to live, to sleep, to travel

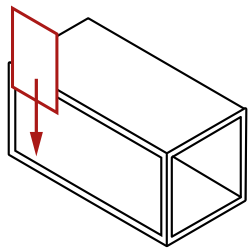

What Space CUBES is about.

Space cubes is a simple full designed and easy-to-use multifunctional system based on a 6-meter's long steel frames. Modulo makes it possible to create various types of room spaces such as events booths, pop-up stores, food boxes, promo stands, restaurants, food outlets, office, hotels and many more, by a quick mounting of external an internal walls, windows, doors, stairs and branding elements. Out of high quality materials.

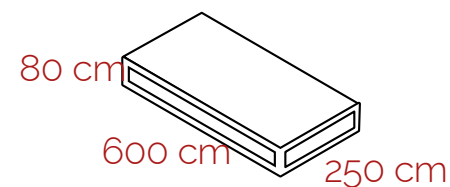

What more, it's patented

Space Cubes | FACTS

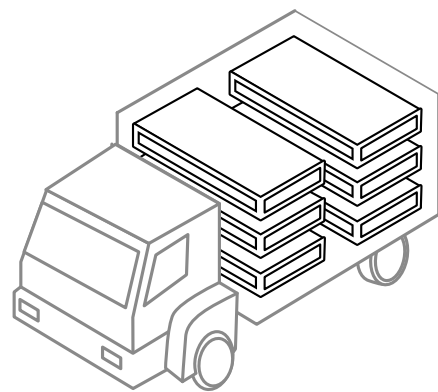

3

Each Space Cube steel frame is equipped with special profiles, allowing mounting of light walls, windows, roofing and stairs, terraces and balcony thus modifying space and functions. It is possible to create a singleSpace Cube box or demanding Architectural structures consisting of many combined and stacked modules.

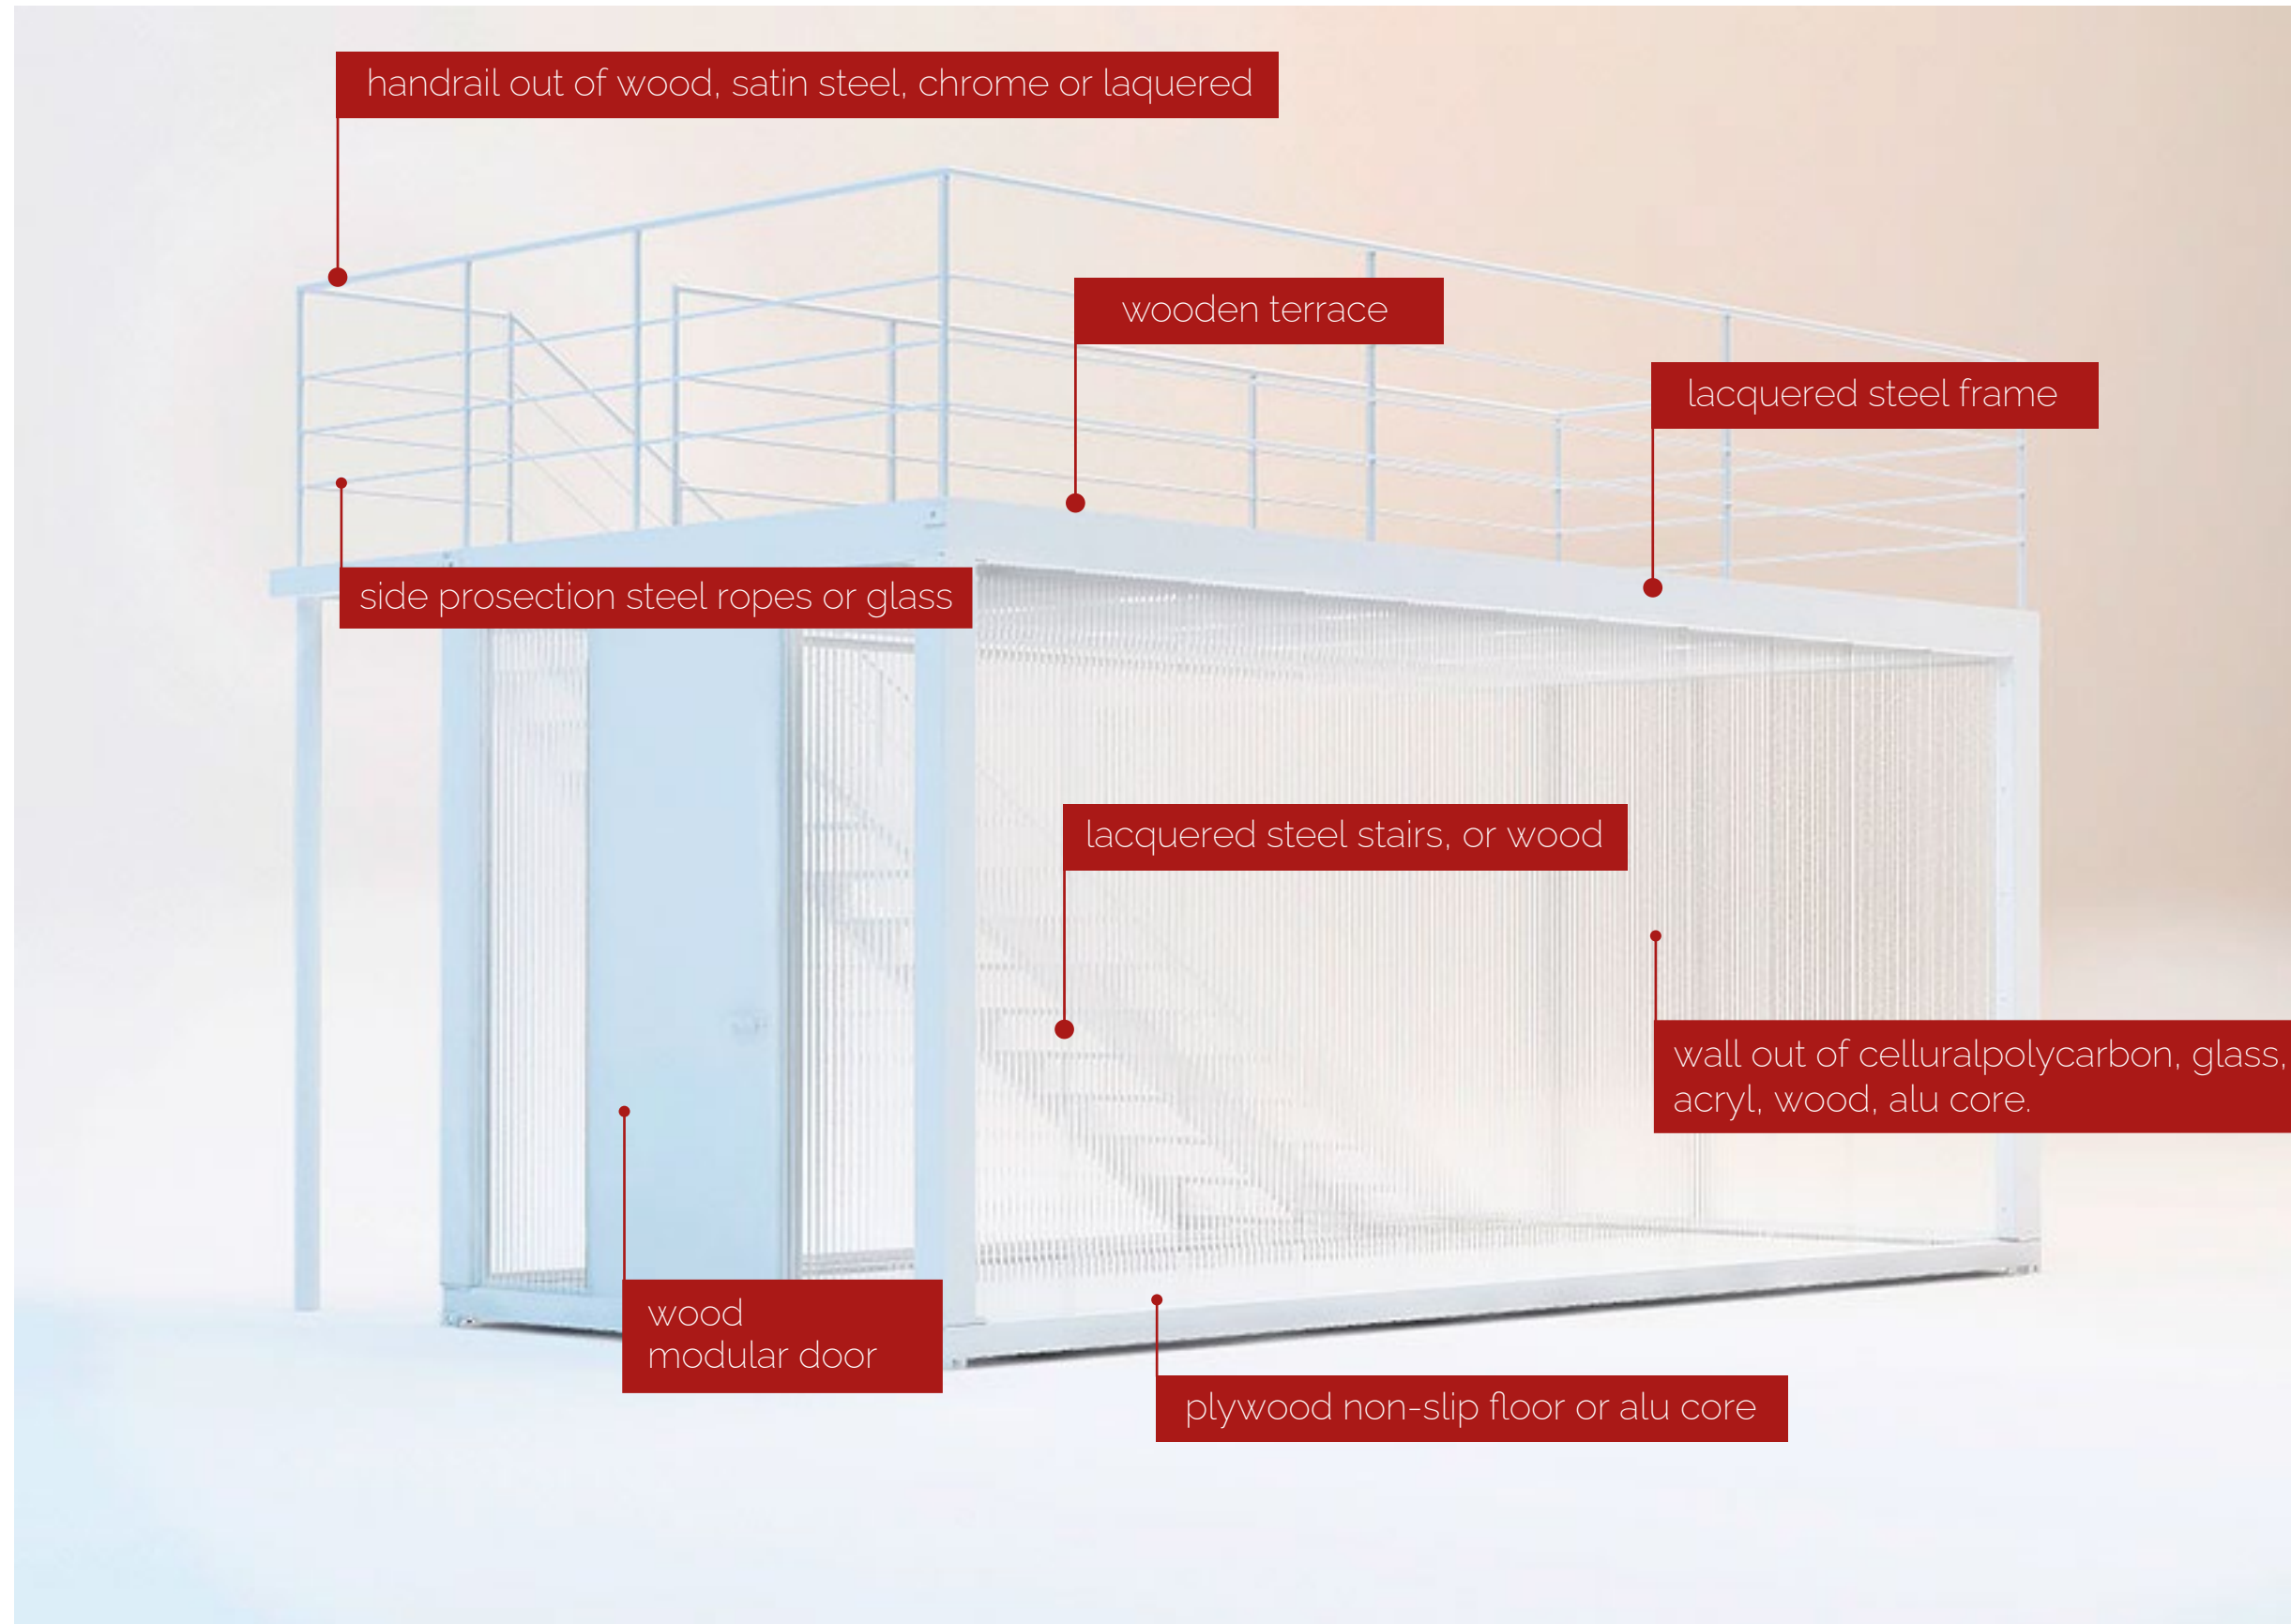

A single packed MODULO is only 80 cm high!

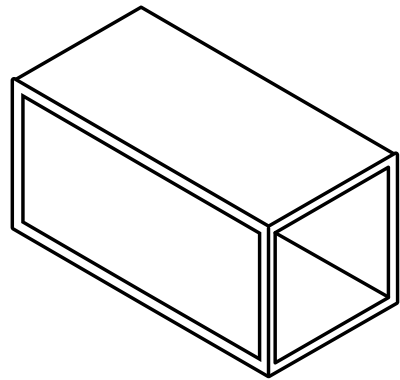

One truck can comprise up to 6 MODULO packs!

Space Cubes | ELEMENTS
